## MADE IN EUROPE

We attach great importance to local production and only in this way can we ensure the high quality of our products.

Therefore we produce in Germany and Europe in pure manual labor. Short transportation distances, sustainable production and fair wages are very important for us. Since we manufacture ourselves, we know exactly what is in it and can offer this with a clear conscience.

## INNOVATION AND DESIGN

Through the creative exchange of our designers in the development of ideas, arise unique bathroom products that transcend the boundaries of luxury. At the same time we try to create the most creative atmosphere possible. It is also our goal to our products with smart features and offer the customer further advantages, which advantages that set us apart from the competition. In order to guarantee our quality, every piece of furniture that makes its way from the design stage to the finished product is sealed with its own „von Behren“ logo and is assigned a consecutive serial number.

# SUSTAINABLE PRODUCTION AND NATURAL MATERIALS

The von Behren brand sets new quality standards. With our series „ROYAL“ series, we are creating a new bathroom culture made of high-quality real wood. „Pure nature“ find a way into your new bathroom and impresses with durability in a modern high-end design. The feeling of aesthetics and highest luxury is experienced with all senses.

## HAPPINESS LIES IN THE DETAIL

Our natural wood furniture tells a story and is truly unique. Each of our bathroom designs are handcrafted in Germany with great attention to detail.

Natural processing and sustainability are for us the cornerstones of a true bathroom design from the house of von Behren. Small things delight us in everyday life. The refinement of the details and the timeless design will delight you every day and make your bathroom your favorite place.

## THE MATERIAL OF THE LUXURY CLASS.

ROYALstone is the new, modern, bright white material for thin walls and noble matt surface. Away from thick-walled, chunky, shiny, bacon-like ceramics or acrylics (plastic), ROYALstone sets a new high-quality design trend.

ROYALstone is solid material (aluminum trihydrate) instead of conventional mineral casting (calcium carbonate), which is sprayed with a „varnish“ (gelcoat) sprayed over it. Our ROYALstone is about 10 times more expensive than calcium carbonate, but much more robust, whiter and of better quality.

You can compare the materials, such as real wood and veneered chipboard. If there is, for example, a dent, you can simply sand out the damage simply grind out of our material, as from real wood real wood, because it is completely made of bright white ROYALstone. Mineral casting is gray inside and usually full of pores.

# GESSO

Freestanding bathtub  
Item Number 5013m

1815 x 855 x 560 mm / ca. 140 kg

## GESSO

The indescribably beautiful bay on the beach of Gesso is a deserted spot in the paradise. The Italian sun beams down on the azure, crystal clear sea and the white fine sand is carried by the gentle waves to the cliffs towering in the background. In nature with green bushes and trees, you can enjoy every second of pure relaxation.

Our bathtub Gesso was inspired by this place. Its calm, elliptical shape shape invites you to relax and dream. The tapered ends and wide back offer plenty of space and a well-balanced lying surface. Its thin-walled shape with a clear edge is modern and majestic at the same time. The clear shape, sleek and smooth, gives any room a design element in a class of its own. The shape is timeless and dreamlike, like the beach of Gesso.

# CAPO

Freestanding bathtub  
Item Number 5003m

1570 x 680 x 630 mm / ca. 130 kg

## CAPO

The rock formations of Capo Testa are a true natural wonder. It is a magical place, no artist could have created the rocks more beautiful. They radiate strength and tranquility at the same time.

It is a magical place when the evening sun makes the rocks glow. The design of our Capo bathtub was inspired by these rocks and has gentle symmetrical curves, which in its puristic form is an absolute high-end design piece in your bathroom. It stands like a piece of the rocks of Capo Testa in your bathroom and will carry you into a deep relaxation high up on the rocks, where you can enjoy the sunset and forget everything around you.

# CALA

Freestanding bathtub  
Item Number 5002m

1570 x 680 x 630 mm / ca. 130 kg

## CALA

These are sandy coves cut into the rocks of a cliff, which are small secret and deserted retreats for every explorer. Beautiful in the middle of nature you can enjoy the sunset. the sunset. A place of complete peace and relaxation. In the white, warm sand you hear the sound of the waves and simply dream away. A retreat to escape the the hustle and bustle of everyday life. This is CALA. The elliptical, slender design is like the small sandy coves cut into the rocks. Thin walls and a clear shape is ultra-modern art for your bathroom. It fits especially well into urban living concepts. Created by nature, this bathtub ennobles your bathroom as if it has always belonged.
